Portable Exhibition
& Display Products

Overall system height 2.2 m

1000 mm Biplane Bannerstand

1000 mm Biplane bannerstand:

including carry tube and wrap, feet, panel bars and pole

weight excluding panel 4 kg

Price (rrp) £165

Replacements & Extras

1000 mm graphic bars (pair) £25

Tube and Wrap £35

When Designing graphics for the Monoplane banner stand it may be useful to bear in mind the following :

The top and bottom of the panels wrap around the graphic bars, meaning that any portion of the image at the extreme top or bottom of the panel will not be visible. To avoid this problem the top and bottom 40 mm should be treated as bleed. See diagram right
